

SKU : 802130

DEMO MACHINE

The manual KKS 250 circular cold saw cuts flat and round materials, and also precise rectangular or mitered profiles. The vise features a quick-action clamping feature for small batch productions. The included machine base simplifies machine setup for versatile use in metalworking shops and metal construction operations.

- 45° angle cutting capacity left and right
- Quick clamping vise for series processing
- Integrated coolant tank
- Standard delivered with stand

TECHNICAL SPECS

WORKING AREA

Max. saw blade diameter	250 mm
Speed	45, 90 1/min
Width of vise	100 mm

MEASURES AND WEIGHTS

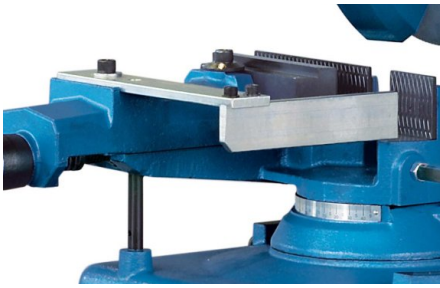

Weight	131 kg
--------	--------

CUTTING CAPACITIES

Cutting capacity 90° - round	80 mm
Cutting capacity 90° - square	65 mm
Cutting capacity 90° - flat	80 mm
Cutting capacity 45° (flat) L (length x width)	60 mm x 55 mm
Cutting capacity 45° (square) L	55 mm
Cutting capacity 45° (round) L	65 mm
Cutting capacity 45° (flat) R (length x width)	55 mm x 45 mm
Cutting capacity 45° (square) R	45 mm
Cutting capacity 45° (round) R	58 mm

DRIVE CAPACITY

Motor rating main drive	2.2 kW
Main drive, continuous load	0.73 kW

PRODUCT DETAILS

- Easy to handle cold circular saw for steel, iron, light metals, solid materials and profiles
- Head swivels 45° to the left and to the right
- Quiet operation with oil-bath lubricated gears for durability
- Vise with quick-action clamping feature for efficient machining of small batches
- 2 speed ranges for machining of a wide spectrum of materials
- Integrated coolant tank
- Base is included

KNUTH on YouTube Information to the point

On our YouTube channel you can find videos for nearly all machines from our program. We show the machines from current deliveries and you get an impression of the handling, the processing quality and the machining performance.

**Are you interested in a machine for which you cannot find a current video?
